**helping local voluntary and community organisations with governance matters**

**support for  
organisations to  
recruit and induct  
new trustees**

**in-house training  
and facilitation to  
boards and  
regular events to  
support trustees**

## The Get on Board project offers:

### Help with trustee recruitment

Could your trustee board do with some new members? Perhaps some younger people with new ideas or professionals who can bring in new skills?

Our project can help you recruit the right trustees to help steer your organisation into the future. We run regular trustee recruitment events where you can come along and meet with potential new trustees.

We can also assist you to prepare for trustee recruitment and induction and we run training for all new recruits to help ensure they fully understand their new roles and responsibilities as trustees.

### In-house training, advice and facilitation

Does your board need some refresher training on charity governance or advice on a specific issue?

Would they find it useful to have a facilitated

session on strategic planning? Whatever your in-house training and facilitation needs are, contact us for a chat and we will see how we can help you.

### Trustee Network

We support trustees by providing seminars and a yearly trustee conference. These are a chance for trustees to meet, network, learn about and discuss issues to do with governance.

We cover topics such as employment good practice, managing your charities money, collaboration and dealing with change. We also provide email updates with useful information.

### Information and resources

We provide regularly updated information and resources on our trustees and governance webpage:
