Making Space

In partnership with **The Julia and Hans Rausing Trust and RBKC** we are proud to announce this grant to increase the **inclusion of children and young people with special educational needs and disabilities (SEND)** in play and youth settings.

Following consultation with SEND young people and their families, this grant responds to the needs of SEND young people. They need spaces in local play and youth settings to feel included and welcomed in sessions.

Applications are open to grants of £40,000 - the average application will be £20,000. We encourage applications of all sizes to apply for this grant

INCREASED ACTIVITIES

We want to see more opportunities and activities across the borough for children and young people with SEND. This includes specialist sessions but also adaptations to existing activities to increase inclusion across all levels.

INCREASED PARTICIPATION

There should be more children and young people with SEND attending specialist and regular sessions. They should feel welcomed and included in sessions and be given the same access to opportunities as young people without additional needs

INCREASED KNOWLEDGE

Staff should have knowledge of how to adapt sessions to be inclusive but also some developed knowledge on specialist needs and how to accommodate to young people. They should feel confident on including young people with additional needs.

- New projects
- Adjustments to existing projects

- Specialist equipment
- Transport costs for SEND young people

- Training sessions for staff
- Covering costs for specialist staff

Our Tips

5 W'S

Make your application really clear by talking about the 5 W's: Who, What, Where, When and Why

This helps us understand the function of our organisation

USE THE SUPPORT

Feel free to ask Young K&C or Westway Trust for help with this application if you have any questions or need any additional support

SPREAD THE COST

We do not recommend using the full cost (£4,000) for one thing, for example £4,000 on rent alone. We would recommend splitting the cost, for example £1,000 on rent, £2,000 on staff costs and £1,000 on policy development

CLEAR COST

Be really clear on the costs of what you're applying for:
£11.95 per hour, 5 hours per week for 6 weeks for 3 staff members = £1,075.50

What are we looking for

Clear explanations of your projects

Be really clear about what your project is doing and how you plan to do it. Be sure to cover the 5 W's as you explain your project

Address the needs of the young people you work with

Use feedback and consultations that you've had with young people attending your sessions to guide your applications. We're here to champion young voices so want to fund projects they have expressed interest in

Be SMART with your outcomes

Don't feel the need to set unrealistic outcomes. We want them to be Specific, Measurable, Achievable, Relevant, and Time-bound

Support what you say.

Make sure you use statistics to support your reasons for the project. You can use information from the feedback you've had from attendees, the National Indices of Deprivation, local reports such *Poverty and Prosperity in K+C*
