

Citizens' Panel Opportunity

North West London CCGs are responsible for the **planning and commissioning** of health care services across the eight boroughs, which means they commission a range of hospital and services providing health services to local people.

The panel provides a way for us to keep you informed of new developments and information for health and social care. It also helps us to gather views from a representative section of our communities to understand your needs and experiences when planning and improving healthcare. Anyone can become a member.

If you choose to be a member you will

- Receive a regular newsletter with information about health and social care
- Be invited to take part in focus groups or panel meetings (this is voluntary)
- Be asked to complete surveys from time to time
- Be asked your views on a range of NHS topics

What are we looking for?

- You don't need to have much **experience** of using the NHS
- A willingness to **contribute**
- You can participate as little as you want
- Good **communication and listening** skills
- Support for the work of the **NHS**
- A **positive attitude**
- An awareness of your own **health and safety** and that of others

What can we offer you?

An opportunity to:

- **Share your experience** with the local NHS
- Receive **training, support and guidance**
- Meet **new people**
- Make **a difference**
- **Learn** something new

If you are **interested** in the role please complete the application form attached and return to:
