

## **Multi-agency Safeguarding & Child Protection Workshop (Level 3)**

*Please note this workshop will cost £80 to private and profit making services. It is free to statutory and voluntary sector agencies.*

Please note this workshop will be delivered online via Microsoft Teams. Instructions for how to join will be sent to delegates who secure a place.

### **Summary**

The workshop includes a range of scenarios designed to explore the various risks children and young people face in our communities. There is more in-depth knowledge around legislation and the child protection process is explored. The thresholds of intervention (early help, child in need and child protection) are examined and the referral process is outlined.

This workshop is suitable for those practitioners who work directly with children or parents. Those who attend this workshop should have a basic understanding of safeguarding children and what to look out for but they do not have to have attended with the LSCP.

### **Learning Outcomes**

- Have up to date information about safeguarding children including how to make a referral and an understanding of the thresholds in Child in Need and Child Protection.
- Have knowledge of the lessons from local and national serious case reviews
- Know what is required as members of Child Protection Conferences and Core Groups
- Have explored the barriers to communicating and sharing information both within and outside
  - your organisations and considered what you can personally do to improve the situation.
