5.2 Objective 2: Exploitation Prevented

How can we all play our part in the CCR?

- Individual:** Individuals can exercise their rights and consider the journey of the things they buy
 - Learn your workers' rights and your human rights
 - Find organisations which can provide advice and support: <https://www.angelou.org/human-trafficking>
 - Buy second-hand goods; and ethically sourced products where you can
- Community:** There is increased demand for goods/services which are free from exploitation
 - Demand fair and safe working conditions for workers in your commission (cleaning, etc)
 - Report suspicious to the Slavery Helpline 0800 901201
- Professional:** Commercial and non-commercial organisations treat employees fairly and mitigate the risks of exploitation
 - Ensure direct employment of staff
 - London Living Wage
 - Ensure fair working conditions
 - Update procurement processes to require suppliers to provide evidence of fair working conditions
 - Publish statements on ethical procurement
- Society:** People are considered equal and are given equal rights and opportunities. The root causes of modern slavery are addressed

4. Our Approach

The Coordinated Community Response

London and Chelsea and Westminster take a Coordinated Community Response (CCR) to modern slavery, which asks everyone to work together within our own agencies, but also with other organisations.

Every survivor's journey, the chances of success, are held a piece of the puzzle. We can ensure the survivor's journey is supported appropriately and effectively. This is the CCR.

We plan to tackle modern slavery in the next five years and beyond.

The Ecological model

Everyone needs support. This is called the Ecological model. It is a regional, both to national and international level.
